# EIQRSTS – RETICLE MANAGEMENT SYSTEM

EIQRSTS is a Reticle/Quartz/Sapphire tracking system that comes bundled with barcode scanner, mobile device and required software. This system can also be used to track any item in the fab or ATM(Assembly, Test & Packaging factory) that needs to be tracked and documented as they move from one location to the other along with other information.

- One stop Reticle Management
  - Helps Manage Reticle Storage & Search
- Simple barcode scans through a mobile device such as cellphone or tablet
  - Quick 2 to 3 barcode scans for check-ins & check-outs
- Comprehensive Reports
  - Current Inventory
  - Activity Report
- Customized to add customer specific needs

Pie chart:
- For Repire: 37
- sec storage 2: 504
- sec storage 1: 1203
- Stocker 1: 893
- Stocker 2: 996
- Stocker 3: 904
